第二节 书面表达（满分 25 分）

A possible version

Dear fellow students,

As is known to us, without electricity the society cannot run smoothly. But around us, electricity is often regrettably wasted, in contrast to which many places have been suffering severe power shortage since this summer. So it's necessary for us to save electricity.

First and foremost, we should make it a habit to save electricity and practice it in our daily life. For example, when leaving the room, we should turn off the lights. Moreover, we should remind more people around us, such as our parents, close relatives and friends, of the importance of saving electricity.

Many hands make light work. Dear fellow students, let's join in the power saving action, start from ourselves, and act from now on.
